# Advance 18

Bettrahmen/*cadre de lit*/bedframe

**Empfehlung**  
Wir empfehlen beim Einsatz von preisgünstigen Lattenrosten oder hoher Gewichtsbelastung eine **Crosstraver** (Quertraverse) und für Betten ab 160 cm mit 2 Lattenrosten oder für den Motorrahmeneinbau eine **Midtraver** (Längstraverse). Midtraver mit Vilo Füßen nicht möglich. Bei Bettbreite 160 cm mit Bettkasten(Box/Conti) geht nur **Crosstraver-Twin**.

**Recommandation**  
*En cas d'intégration d'un sommier bon marché ou de charge importante nous recommandons une **Crosstraver** (traverse transversale) et pour un cadre de lit à partir du 160 cm avec 2 sommiers ou pour l'encastrement d'un sommier à moteur une **Midtraver** (traverse centrale). Midtraver non compatible avec pieds Vilo. Pour une largeur de lit de 160 cm avec coffre à literie (Box/Conti) seule la **Crosstraver-Twin** est compatible.*

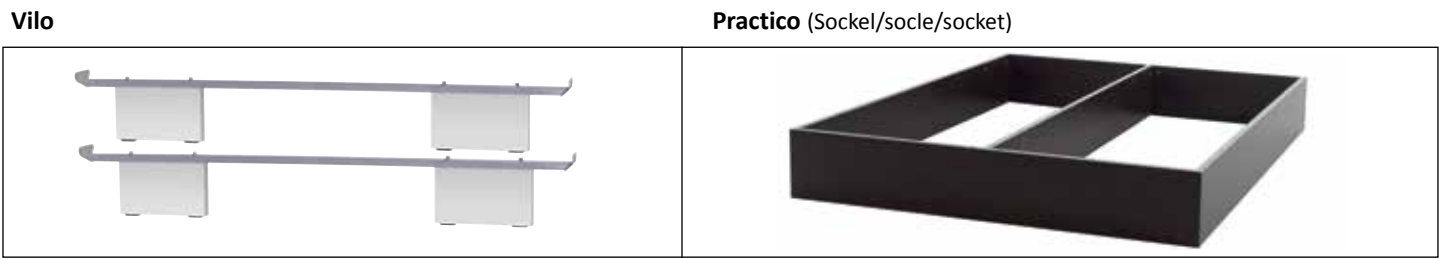

**Recommendation**  
When using budget-prices slats or current capability at high weight we recommend a **Crosstraver** (central cross bar) and for beds up to 160 cm with 2 slats or integration of motorframe a **Midtraver** (central bar). Midtraver with feet Vilo not possible. For width 160 cm with drawer (Box/Conti) use **Crosstraver-Twin**.
